Town and County Matters.

Justice's Court.

J. H. THOMPSON, J. P.
April 8th, 1872.—Eaton & Burns vs. A. S. House: Action in replevin to recover certain goods and chattels of the value of \$285.00; S. G. Harper for plaintiff, Ball & Baker for defendant. Case argued and submitted, and taken under advisement by the Court till the 18th, at 10 A.M., when the Court rendered judgment in favor of plaintiff for the return of the sheets, pillow cases, etc., in as good order as they were on the 2d day of September, 1871; or in case such delivery cannot be had, then for the sum of \$257.40—the value thereof. By consent of parties a stay of proceedings for five days was granted.
April 18th.—M. Peterson vs. M. Furhies: Action brought to recover the sum of \$35, amount due on account. Defendant tendered \$11 as payment in full, which was refused by the plaintiff. A jury trial was demanded, and Messrs. Fockman, Bynum and McKenna composed the jury. Col. Sibley for plaintiff, and F. E. Baker for defendant. Several witnesses were examined, and, after argument by counsel, the case was submitted to the jury, who returned a verdict in favor of plaintiff for \$20 and costs.

OFF THE TRACK.—On Wednesday evening last, after the train of cars bearing the Yolo delegation from the Publishers' Convention had arrived at Davisville, the locomotive was detached from the rest of the train, and in running down on the Sacramento track so as to come up on the Y and turn round, the switch was left open and she ran off the rails before that fact was discovered. It was found that she could not be got back upon the track until another engine could be procured from Vallejo, and as the telegraph office was closed for the night that could not be effected till morning. Here was a dilemma. The rest of the passengers, however, were taken on to Woodland on a hand-car, arriving about 2 A.M. The delegation accepted an invitation to put up at the Marden Hotel, and wait for the train. In the morning another engine came up from Vallejo, when the one off the track was soon hauled on again without damage, the train made up, the signal given to start, and at precisely 12 M. on Wednesday, the Yolo delegation was landed in Woodland, safe and sound in health and limb.

AN ORDERLY TOWN.—Since the 1st of January, 1872, the records show that but twelve arrests have been made in Woodland for drunkenness. One of the twelve had the additional charge made against him of indecent exposure, and one of disorderly conduct. Six arrests for a little "unpleasantness," two of which were dismissed by the court. No serious damage done in any of the cases. No arrests for any cause this month. There have been 21 civil actions, five of which were against Mendessolo & Co., and five against horses or cattle for trespass; only 11 for the recovery of money or property. Two cases were brought to Judge Thompson's Court on change of venue. This is certainly a fair record for nearly four months.

SCHOOL TRUSTEE.—An election will take place on Saturday next for a Trustee of Woodland School District. It is very important that a good and competent man should be selected for that position—one who not only comprehends fully the duties of a School Trustee, but who will take a proper degree of interest in the management of the public schools and devote the necessary time to the performance of those duties. Such a man is Judge James Johnson, our late County Judge, who we learn has consented to act in the capacity of School Trustee, if desired by the residents of the District. We regard him as eminently fitted for the office and deem him just the man for the place.

ANOTHER NEW ADVERTISER.—Mr. D. Dunphy having got under full headway at the old stand, opposite the Exchange Hotel, proposes to let the people know, through the medium of the press, that he is on hand to supply their wants in his line. Besides doing everything in the way of blacksmithing, repairing wagons and farming implements, etc., he has the agency in Woodland for the celebrated Excelsior Mower, and also for the well known Studenbaker wagons. He desires all in want of these articles, or anything in the blacksmithing line to call and see him, believing he can give the best satisfaction.

SPRING AND SUMMER GOODS.—Always up with the times, Fleischman & Kaufman have just opened large inventories of Spring and Summer goods exactly suited to this vicinity, which they ask purchasers to examine, and guarantee that they will be pleased with styles, quality and prices. They are also agents for Baker & Hamilton's farming implements and machinery, any of which they are prepared to supply on the shortest notice.

The Town Government.

EDITOR DEMOCRAT.—An article in the Yolo Mail, of April 11th complains that the present law of incorporation is insufficient, not granting sufficient powers for the purpose of raising money to forward necessary improvements. Now I claim that it is lack of inclination on the part of a majority of the Trustees, and not the law that is in fault. If the Trustees had performed their duty there would have been no debt now. The law authorizes them to impose a license tax on saloons, billiard tables, etc., but not on other kinds of business; and this as it should be, for this reason: The saloons generally have but a few hundreds invested, while the general merchandise stores have from \$5,000 to \$50,000. The expense of the Town need not be more than \$150 or \$200 per month, on an average, and if the saloons were taxed from \$5 to \$10 per month and the property from 25 to 50 cents on the \$100, the saloons would not pay more than their share. In this way there would be plenty of money raised to defray all the expenses of the Town Government and have a fund besides to occasionally open a street that may be a great public necessity, or for other purposes. This would not work a hardship on the saloons, as it is reasonable to suppose that should the crop prove to be a large one, as it now bids fair to be, the saloons would be greatly multiplied; whereas, if a tax were levied upon them they would be confined to their present number and the Town would prove more orderly.

The new act of incorporation did not propose to confer any greater power than the present one, only to authorize the licensing of all kinds of business, and making licensing of Sunday school exhibitions obligatory. Perhaps it would be well to add that the last mentioned act is about all that has been accomplished by the present Board of Trustees.

Would it not be well for some of the leading business men to lead in a call for a mass meeting of citizens to take into consideration the matter of disincorporation, and discuss the propriety of a citizens' ticket—to select five of our best citizens who have the good of the town at heart, and who would not be afraid to do what they believed to be for the best interests of the Town. Yours, etc., CITIZEN.

WE must not be supposed to endorse all of the above communication, neither do we wish to stifle expression on the part of any of our citizens, by refusing them a voice through our columns. Referring particularly to the last paragraph of the above—we believe in the rule of the majority, in town as well as in county and State matters, and where two tickets are in the field, every voter can cast his ballot for whatever candidate he pleases, thereby insuring the election of good men. As the annual election of Trustees takes place in a few days, these are matters worthy of consideration.—Ed.

REPUBLICAN PRIMARY ELECTION. At a Republican primary election held in Woodland 13th inst., to elect 9 delegates to the County Convention, to select delegates to the State Convention, they in turn to choose delegates to the Philadelphia Convention, there were two tickets in the field, one printed and the other written, Mr. Hollingsworth's name being on both. The following (written ticket) candidates were elected: R. B. Blowers, N. Wyoff, A. Steiner, L. B. Ruggles, R. Fitz, Chas. Day, J. K. Smith, Jno. Hollingsworth and F. S. Freeman. The total number of votes cast was 41, Mr. Freeman receiving the highest number—38, and Mr. Wagstaff the lowest—5.

A PLEASANT ENTERTAINMENT.—Mrs. Marble and Mr. A. H. Havell, assisted by other musicians, will give a grand vocal and instrumental concert at Central Hall, on Wednesday evening next. These performers are well known in this place as a lady and gentleman of the first order of musical talent, having a few months ago performed in the same hall before a very large audience who were never better pleased. Mrs. Marble, we learn, will also recite "The Raven," in her inimitable style. Everyone who possibly can will of course attend so rare an entertainment.

Change of Base. Confidence is restored. We shall have an abundant harvest this year, and the glittering gold will be plenty—Providence says all things well—and we should be content. The firmament has been darkened, the serene skies have been disturbed, the rain has fallen in torrents, the soil is moistened as deep as desire, the grain is now abundant and beautiful, the earth is coming up. So will real estate in Woodland. Now is a splendid time to buy. I now offer for sale land in parcels from usual sized town lots to half-acre tracts—if you want more land take more lots. I have lots in alfalfa, lots with vines upon them, lots with orchard trees in bearing, lots in wheat, a house and lot, and a barn and lot; also a four-acre lot fenced and in the condition to sow with clover. If you wish to eat fruit from your own vine and fig tree, come and buy a lot of me. There are, I have no doubt, some who desire a home in Woodland, to come and educate their children; others who want clover lots, for their cows, horses, pigs, chickens, etc., and still others who want lots for speculation. Come and buy of me; my lots are well adapted for all of these purposes. Now is the golden opportunity. Woodland is centrally located, a thriving place and will make a much larger town. I need all cash down, but am willing to accommodate, and will give time if desired, for I want everybody to have a home. Come and see me. If you cannot come on account of bad roads, or are very busy putting in your crops, or for any other reason, write. You will find me for the present cheerful but needy. Stand ye not idly by, for he that whittles his time away will run out and be forgotten. Shakespeare says there is a tide in the affairs of men which, when it flows, leads on to fortune. I say, procure a lot while prices are at the lowest ebb. "This is a good season, and prosperity to the country is rapidly flowing. Avail yourselves, before it is too late, and float on to prosperity, peace and happiness, and when the night air serene pervades the cold, sleep ye all under your own house roof. Act wisely and procure a home. Believe me truly, NATHAN ELLIOTT, January 27th, 1872.

KNIGHTLY TOURNAMENT.—It is expected that the annual tournament of the Knights of Yolo will this year take place at Woodland. Efforts are being made to effect such an arrangement, and we trust they will be successful. Their feats of horsemanship are a novelty in this part of the world, and we hope our people will have the pleasure of witnessing them within a few weeks.

SEASONABLE LUXURIES.—S. Kaufman will in a few days be ready to furnish the most delicious Ice-Cream and Soda-water, flavored to suit the most fastidious tastes. Families, parties, festivals and balls will be attended with all promptness, and the above articles furnished at a very reasonable rate, delivered wherever required.

FOR THE VERY BEST PHOTOGRAPHS, go to Bradley & Rolofson's Gallery, without stairs, 22 Second St. between 4th and 5th Montgomery St., San Francisco.

HALL'S Vegetable Kidney Hair Renewer never fails to restore the natural color of the hair. Try it.

MARRIED.
At Cottonwood, April 14th, by Elder A. W. Dewitt, Jonathan W. Ottum and Miss Mary Ann Howard.
In San Francisco, April 15th, by the Rev. Dr. H. H. Henry, Adolph Kuehn, of Cacheville, Yolo County, to Miss Caroline Rosenthal, of San Francisco.

SPECIAL NOTICES.

NO HUSBAND.—We do not wish to inform the reader that Dr. Wendorfer, or any other man has discovered a remedy that cures all diseases of mind, body or estate, and is designed to make our salubrious sphere a blissful Paradise to which Heaven itself shall be but a side-show; but we do wish to inform you that Dr. Sago's Catarrh Remedy has cured thousands of cases of Catarrh in its worst forms and stages, and the proprietor will pay \$500 for a case of this loathsome disease that he cannot cure. Sold by druggists.

The True Grounds of Confidence.

Whence comes that firm reliance, that absolute, undoubting faith in the efficacy of Hostetter's Stomach Bitters as a remedy for indigestion, bilious disorders, intermittent and remittent fevers, which notoriously prevail in all parts of the United States. This confidence has been growing for twenty years, and it is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience. What people see daily going on under their own eyes they cannot question. When families in unhealthy districts resort to this wholesome vegetable tonic, as a preventive, escape periodic fevers, and their immediate neighbors who neglect to do so, are prostrated by the disease, how is it possible that the phenomenon of confidence should be so universal? The thousands upon thousands who owe their restoration to health and strength, are penetrated by the disease, how is it possible that the phenomenon of confidence should be so universal? The thousands upon thousands who owe their restoration to health and strength, are penetrated by the disease, how is it possible that the phenomenon of confidence should be so universal? The thousands upon thousands who owe their restoration to health and strength, are penetrated by the disease, how is it possible that the phenomenon of confidence should be so universal?

SPECIAL NOTICE.—Indigestion is the cause of nine-tenths of all diseases the living machine is subject to. Give tone to the stomach and digestive organs, and you will make your share half in your doctor's bill. Dr. Hostetter's celebrated ILLIUM Bitters are recommended by physicians to dyspepsia and for all the Complaints of the Liver and digestive organs. See advertisement in another column. 263-2m

Religious Services.

CHRISTIAN CHURCH.—Rev. J. N. Pendegast. Services at the Chapel every Sabbath at 11 A.M. and 7.00 P.M. Sunday School at 9 A.M. Prayer meeting every Thursday evening at 7.00.
CONVENTION.—Presiding every Sunday, in Central Hall, by Rev. S. R. Roeder, at 11 A.M. and 6.30 P.M. All are invited. Sabbath School immediately after the morning service.
METHODIST EPISCOPAL CHURCH.—Rev. W. S. Urmy, Pastor. Preaching every Sabbath at 11 A.M. and 7.00 P.M. Sabbath School at 9.30 A.M. Prayer-meeting, Thursday evening at 7.00, and Class-meeting on Monday evening at 7.00 o'clock, at the Church.
CATHOLIC CHURCH.—Mass will be celebrated in the Court House, Woodland at 11.30 A.M. on the first, third and fourth Sundays, and in Davisville on the second Sunday of each month.

Courts of Yolo County.

DISTRICT COURT.—Hon. Lewis Ramage, Judge; D. Schneider, Clerk. Regular Terms commence on the third Monday in May, September and January.
COUNTY COURT.—Hon. J. A. Hutton, Judge; D. Schneider, Clerk. Regular terms on the first Monday in January, April, July and October.
PROBATE COURT.—Hon. J. A. Hutton, Judge; D. Schneider, Clerk. Regular terms, same as County Court.

Board of Supervisors.

Geo. H. Swingle, President; E. Roberts, R. McGowan. Regular meetings, on the first Monday in February, May, August and November.

BRICKS! BRICKS!

And Brick Buildings.

The undersigned having consolidated their interests in the brick and building business, are now prepared to contract and erect structures of brick, or any building in the line of brick work, at low prices. We feel that we can and will erect brick buildings for a less price than any other locality upon the coast. It has been satisfactorily proven that brick withstand the terrible fire found in Chicago better than any other material, and that was used in erecting the costly structures in the famed city of the great northwest, and as this is a very dry country the greater part of each year, (this a wet season) hence the necessity of building habitations and places of business out of indestructible material by the fire element, and guard against the expense of the Summer sun. Brick houses can be made much cooler than wooden ones.

To the People of Woodland and Vicinity.

We would say that we intend to manufacture a large amount of brick this season, which will enable us to sell and erect buildings for a less price than if we did not manufacture largely.

To the People of Dixon and Davisville.

That we will furnish you brick upon the same terms as in Woodland at a low figure when any considerable quantity is taken.
For any of the people in the country, living at great distances to haul bricks from our yard here, we are prepared, if they desire it, to make the brick upon their farms and erect their buildings.
Woodland, March 9th, 1872. CRAFT & ELLIOTT.

MISCELLANEOUS ITEMS.

TEXAS CATTLE LARD. Texas has her aristocracy, known as cattle lard, and a writer in the St. Louis Journal of Commerce, referring to the great possessions, says: "The Santa Fe River, owned by Colonel Richard King, contains 132,000 acres of land, stocked with 65,000 cattle, 30,000 horses, 7,000 sheep and 5,000 goats. For the management of this immense herd, 900 Mexican hands and 1,000 saddle horses are held in constant requisition. Colonel King's ranch year brands 12,000 calves, and sells 10,000 fat cattle, constantly investing the surplus proceeds in stock cattle. Of course his ranch, twenty miles below Goliad, on the San Antonio River, in 1862 contained over 40,000 cattle; during that year on this estate 12,000 calves were branded, and \$80,000 realized by the sale of cattle. This enterprise was inaugurated ten years previously with 1,500 cattle. Bollen's ranch, between the Nueces and Rio Grande Rivers, owned by Mr. Kennedy, is a fertile peninsula of 142,840 acres, jutting out into the Gulf of Mexico, the isthmus being secured by thirty miles of plank fence, guarded at intervals by three miles by wire fence. It already contains 30,000 best cattle besides large numbers of other kinds of stock."

WASHINGTON AS A FARMER. The farm of General Washington, at Mount Vernon, contained ten thousand acres of land in one body—equal to about fifteen square miles. It was divided into farms of convenient size, at the distance of two, three and five miles from the Mansion House. He visited these farms every day, in pleasant weather, and was constantly engaged in making experiments for the improvement of agriculture. Some idea of the extent of his farming operations may be formed from the following facts: In 1787 he had five hundred and eighty acres in grass, sowed six hundred bushels of oats, seven hundred acres with wheat—as much more corn, barley, potatoes, beans, peas, etc., and one hundred and fifty with turnips. His stock consisted of one hundred and thirty horses, one hundred and twenty cows, two hundred and thirty-six working oxen, hogs and steers, and five hundred sheep. He constantly employed two hundred and fifty hands, and kept two hundred and fifty slaves. During the whole year, when the earth and the state of the weather would permit, in 1780 he slaughtered one hundred and fifty hogs for the use of his own family, and provisions for his negroes, for whose comfort he had great regard.—N. Y. Observer.

THE WAY TO SUCCESS. Fortune, success, position, are never gained but by piously, determined, bravely striking, growing, living to a thing. In short, you must carry a thing through if you want to be anybody or anything, no matter if it does cost you the pleasure, the society, and the thousand perils of gratification of life. No matter for those sticks to the thing and carry it through. Believe you were made for the matter, and that no one else can do it. Put forth your whole energies. Be awake, electrically yourself, and go forward to the goal. Only once learn to carry through a thing in all its completeness and proportion, and you will become a hero. You will think better of yourself, others will think better of you. The world, in its very heart, admires the stern and determined doer. It sees in him its best sight, its brightest object, its richest treasure. Drive right along, then, in whatever your undertaking may be, and you will find it sufficient for the deed. You will be successful.

CONSERVATION IS PROTECTED IN TWO MINES—The "Almaden" of Spain, mortgaged to the Rothschilds by the Spanish government, and the New Almaden, California. About a year ago the American Quicksilver Company came to an understanding with the Rothschilds that they would divide the world between them. The proprietors of the New Almaden mines agreed to produce only a certain quantity annually, and bound themselves to sell all of it in Europe or Mexico, while China was abandoned by the Rothschilds to the American company. The result is that an ounce of quicksilver, owing to the 10 per cent. precisely 15 per cent. dearer in California, where it is produced, than in Mexico, to which it is exported from Spain. The Rothschilds, however, could not manipulate this business, and our pupils must be cautious not to interfere unwarily with their schemes.

A LAW passed by the first Legislature divided the State into three judicial districts. The First District is composed of the counties of Contra Costa, Alameda, San Joaquin, Colusa, Amador, El Dorado, Sacramento, Nevada, Placer, Alpine and Tuolumne. The Third District is composed of Marin, Sonoma, Napa, Lake, Solano, Yolo, Butte, Glenn, Colusa, Sierra, Butte, Lassen, Mendocino, Tehama, Colusa, Humboldt, Trinity, Shasta, Siskiyou, Klamath and Del Norte. The Second District is composed of San Diego, Los Angeles, Santa Barbara, Santa Clara, Santa Cruz, San Mateo, Mariposa, Mono and Inyo.

THE EARTHQUAKE IN YOSEMITE. A letter from Yosemite Valley says of the late great shock: "It was the heaviest quake ever felt here. The rocks immediately behind the falls howled away near the summit, and came down with a terrific crash, grinding the largest trees to splinters, and hundreds of others of less magnitude. Yet there has been no serious damage done. The valley was so filled with dust and smoke from the falling and grinding up of rocks that it was difficult to breathe. The largest trees waved in and out and bent about like mere twigs. It continued throughout the balance of the night, the earth heaving and shaking every few minutes until about sunrise, when there was another severe shock, but not so hard as the first."

TRY IT. When, from sedentary habits, the muscles are enervated, and the digestive system disordered, the best method for restoring the patient to health and vigor is by the use of a charged with electricity, applied through the handle of a spoon, a hoe, an axe, or some similar instrument. Apply it daily, and for some hours at a time.

SAN FRANCISCO has raised \$7,000 for an Inyo sufferers.

BUTTER AND CHEESE

Are particularly in our line, and purchasers can be assured of the highest quality of goods in an advertisement.

Plantation Bitters

This wonderful Vegetable Restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

Lyon's Kathairon,

For Preserving and Beautifying the Human Hair, to Prevent its Falling Out and Turning Gray.

A well-preserved Head of Hair, in a person of middle age, at once bespeaks refinement, elegance, health and beauty. It may truly be called Woman's Crowning glory, while men are not insensible to its advantages and charms. Few things are more disgusting than thin, frizzy, harsh, matted hair with head and coat covered with Dandruff. Visit a Barber and you feel and look like a new man. This is what LYON'S KATHAIRON does the time. The charm which lies in well placed Hair, Glossy Curis, Luxuriant Tresses and a Clean Head, is noticeable and irresistible. Sold by all Druggists and Country Storekeepers. July-ly2

SCIENTIFIC AMERICAN FOR 1872.

Twenty-Seventh Year.

THIS SPLENDID WEEKLY, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper and contains a large quantity of original engravings, representing New Inventions, novelties in Medicine, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Mining and Art.

PATENTERS, MECHANICS, ENGINEERS, CHEMISTS, MANUFACTURERS, AND PEOPLE OF ALL PROFESSIONS OR TRADES WILL FIND THE SCIENTIFIC AMERICAN OF GREAT VALUE AND INTEREST.

In practical suggestions will save hundreds of dollars to every Householder, Workshop and Factory in the land, besides affording a constant and profitable source of instruction. The Editors are assisted by many of the ablest AMERICAN and EUROPEAN WRITERS, and having access to all the leading Scientific and Mechanical Journals of the World, the contents are constantly enriched with the choicest information.

An Official List of all the Patents Issued is Published Every Week. The yearly volume of the SCIENTIFIC AMERICAN makes Two Splendid Volumes of nearly One Thousand Pages, equivalent in size to four thousand ordinary book pages.

SPECIMEN COPIES SENT FREE. Terms—\$1 a year; \$10 half year: Clubs of ten or more at special rates. The SCIENTIFIC AMERICAN is sent to the person who forwards a copy of the celebrated "First Prize" Essay, or "Progress of the Year."

For instructions concerning American and European Patents, and for full written description of the invention, should be sent. For instructions concerning American and European Patents, and for full written description of the invention, should be sent.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chills, Biliousness, etc., and all the ailments which arise from malarial, marsh, or miasmatic poisons.

No one remedy is so widely called for by the necessities of the American people than a safe and sure cure for Fever and Ague. Such a cure is now at hand, and it is so simple and so certain that it will eradicate the disease, and with assurance, founded on fact, that no person can arise from its use in any quantity.

That which purges the system, and presents this disease in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baneful disorder. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its preliminary symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but it is so simple and so certain that it will eradicate the disease, and with assurance, founded on fact, that no person can arise from its use in any quantity.

CARRIAGE AND WAGON MANUFACTORY,

CORNER MAIN AND FOURTH STS., Opposite Gas and Water Works, WOODLAND, CAL.

LIVERYMEN, FARMERS AND TEAMSTERS

Will find my make of BUGGIES, SPRING and FARMER WAGONS, the best in any market for their use.

BECAUSE they have as good if not the best reputation at home. Each Wagon is perfect in all its parts.

BECAUSE my prices are as low as the lowest for first-class work.

BECAUSE I can furnish the highest home testimonials as to their durability and lightness of draft.

BECAUSE none but the best and most experienced mechanics are employed in their construction.

BECAUSE they are built upon scientific principles, containing the greatest strength with lightness of draft.

BECAUSE wherever introduced they are generally preferred by Liverymen, Farmers and Teamsters.

BECAUSE they are made in a very DRY CLIMATE, and from that fact are far superior for service to those built in more moist or damp parts of the country.

FIRST—The carriage-horse should be apart from the stable, as the ammonia arising from horse manure will in a very short time destroy the varnish on a carriage, and then the owner is obliged to have the carriage made up with inferior varnish.

Second—In washing a buggy coat, water should be used freely, so as to remove the dust and mud before using the sponge and camellia skin.

Third—Never turn the hose under or on the seat, for the water will loosen the canvas and glue, and cause the corners to give way and the body to go to pieces.

Fourth—To preserve the wood and save expense, the carriage should be kept thoroughly painted and varnished.

Fifth—I am better prepared than ever, to Paint, Ornament and Varnish Carriages, Wagons, etc. I have in my employ the best of workmen, and use none but the best materials of paint, oil, and varnish. My work is done in connection with my Paint Shop and Varnish Rooms, which are as good if not the best on this Coast, being finished and free from dust. I can, and have turned out as much, elegant and nice finished jobs as can be done in the State.

Sixth—Those wishing to get their buggies, carriages, etc., repaired and painted, will do well to call at my shop and examine my superior workmanship over other shops. I am willing to abide by the judgment, "My work is worth what I ask for it." I am willing that my work shall make me look no more at the price, but at the quality of the work.

SEVENTH—Those wishing to get their buggies, carriages, etc., repaired and painted, will do well to call at my shop and examine my superior workmanship over other shops. I am willing to abide by the judgment, "My work is worth what I ask for it." I am willing that my work shall make me look no more at the price, but at the quality of the work.

EIGHTH—Those wishing to get their buggies, carriages, etc., repaired and painted, will do well to call at my shop and examine my superior workmanship over other shops. I am willing to abide by the judgment, "My work is worth what I ask for it." I am willing that my work shall make me look no more at the price, but at the quality of the work.
